

PhonePe

PhonePe

presented by: Yelavarthi Suchitra

INTRODUCTION

- **PhonePe Pulse** is a public data platform created by **PhonePe**, one of India's biggest digital payment companies. It provides **official, verified data** about how Indians use digital payments.
- **Files that have used:**
 - aggregated_transaction.csv
 - aggregated_user.csv
 - map_transaction.csv
 - map_user.csv
 - top_transaction.csv
 - top_user.csv
- **Tools used:** Power BI

Objectives

- Identify top-performing states & categories
- Analyze PhonePe Pulse data
- Visualize growth trends
- Prepare insights using Power BI

PhonePe

Key Metrics Used

- Total Transactions
- Total Amount
- YoY Growth %
- Quarter Growth %
- Average Transaction Value
- Total Registered Users

Methodology

- Import CSV files
- Cleaning & transformation
- Create date hierarchy (Year → Quarter)
- Create measures:
 - Total Transactions
 - Total Amount
 - YoY Growth%
 - QoQ Growth%
- Create visuals
- Build dashboard

PhoneP
INDIA'S PAYMENTS A

Key KPIs

- Total Transactions
- Total Transaction Amount
- Total Users
- YoY Growth %
- Top State by Transactions
